About the Magazine

The Journal for Vascular Ultrasound (JVU) is the authority quarterly Journal of the Society for Vascular Ultrasound and distributes peer-audited articles on all parts of the noninvasive determination of vascular infection, including unique examination, surveys, case reports, letters to the supervisor, and publications. Proceeding with Medical Education (CME) test questions are incorporated with numerous JVU articles that perusers can finish to acquire CME credits. The JVU is as of now welcoming entries of articles with topic that falls inside the diary's Aims and Scope.
