About the Magazine

Research and Reviews: A Journal of Embedded System and Applications (JoESA) is a print and e-journal centered towards the publication of all the research/survey work carried out under Embedded System and Technology. This journal covers all major fields of applications in Embedded Systems.

All commitments to the journal are thoroughly refereed and are chosen on the basis of quality and originality of the work. The journal distributes the most significant new research papers or any other original commitment as reviews and reports on new ideas in all areas pertaining to its extension and research being done on the planet, consequently guaranteeing its logical need and significance.
