About the Magazine

International Journal of Industrial Engineering and Design is dedicated to the distribution of key examinations in industrial design and engineering, with an accentuation on operational exploration. Journal especially invites papers from recently developing regions just as conventional fields that structure the center of the industrial engineering. Journal invites all significant sorts of logical interchanges; unique examination article, survey article, publications just as short correspondence that fall under the concentration and extent of the journal. The idea of data anticipated from commitments ought to ideally be founded on the commonsense part of the subject.

All commitments to the journal are thoroughly refereed and are chosen based on quality and creativity of the work. The journal distributes the most huge new examination papers or some other unique commitment as surveys and reports on new ideas in all zones relating to its degree and exploration being done on the planet, subsequently guaranteeing its logical need and importance.
